Additional Information

Of your top three painting options, the business owner will choose only one to be taught at your party. This is dependent on which of our artists is available to host your party. Please make sure you pick your very favorite three paintings, that way if you don't get your first choice you won't be disappointed!

OUR EVENTS ARE NOT "BYOB." We do NOT allow nor tolerate ANY outside food or beverages in our public classes nor our private events (Please refer to the food option section for more information).

With a private party booking, our studio is set aside for your use only during the hours you request as long as the date is available. You also get to choose the painting for your private event. If there is a painting you are interested in doing that is not included in the options, please feel free to let us know and we will do what we can to get it for your event! We can do custom painting designs for a \$40 charge. Bring us an image that you would like to have us paint for your event, and we will use it (\$40 custom painting charge to be charged with deposit).

Our studio features a full service kitchen and staff that are available to serve you and your guests delicious options from our full restaurant menu and our wine and beer list – all while you paint and socialize! You have the option of having an "open kitchen" where your guests are able to order whatever they would like from our menu, or we also offer catering platters (which are listed below).
